

Automation Powered by Insight

Analytics-Driven Pharmacy Solutions Designed to Help Your Pharmacy Grow

Welcome to JFCRx™ Where Automation, Analytics, and Partnership Meet

We are a true pharmacy solutions partner—combining connected technology, advanced analytics, and hands-on collaboration to help pharmacies succeed.

- ▶ Increase throughput without adding staff
- ▶ Improve safety while boosting productivity
- ▶ Access non-PBM revenue sources
- ▶ Reduce manual processes and workflow bottlenecks
- ▶ Minimize downtime and rework steps

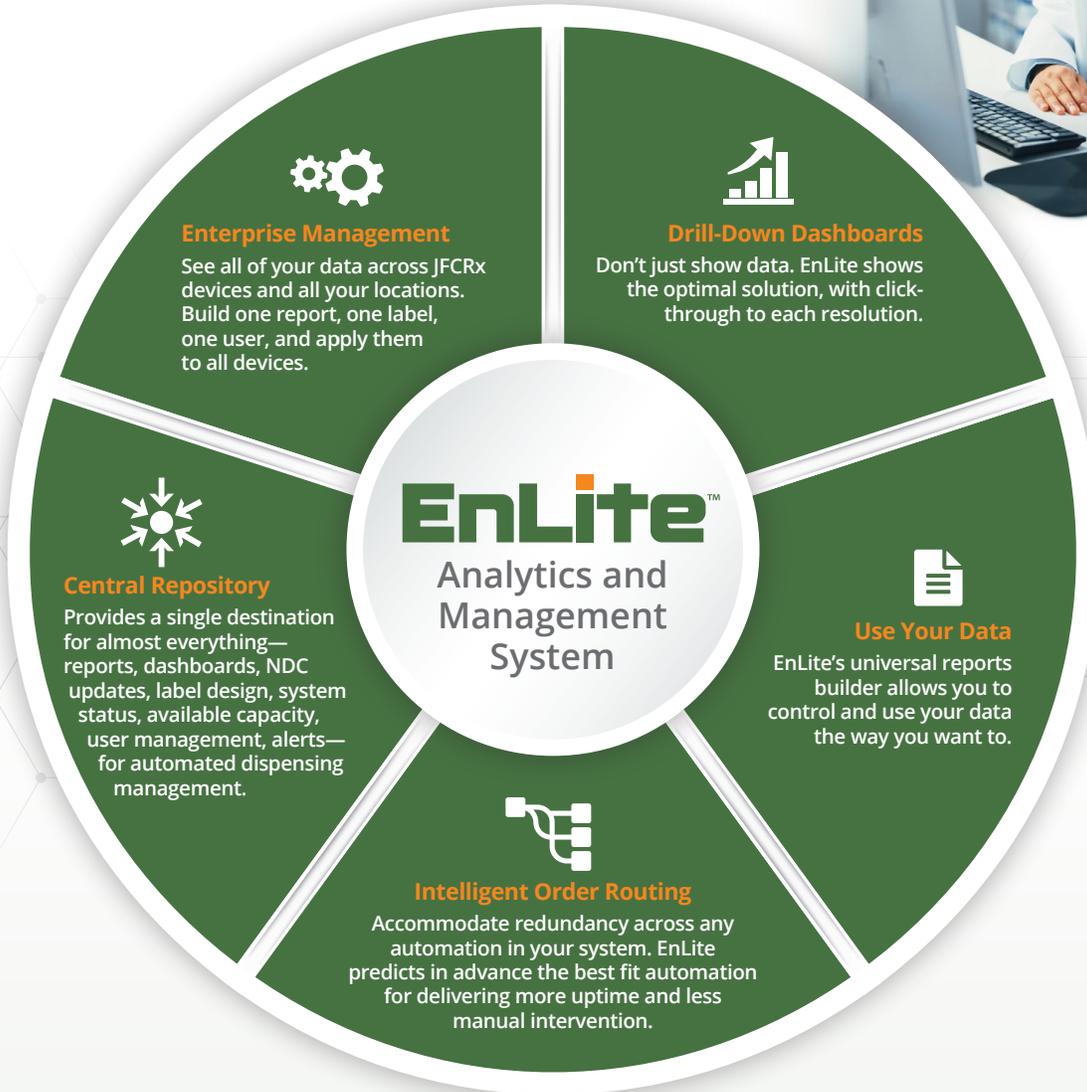

Analytics-Driven Approach

By leveraging real-world data across connected systems, we go beyond devices. We design better workflows, uncover inefficiencies, and deliver actionable insights that drive measurable results.

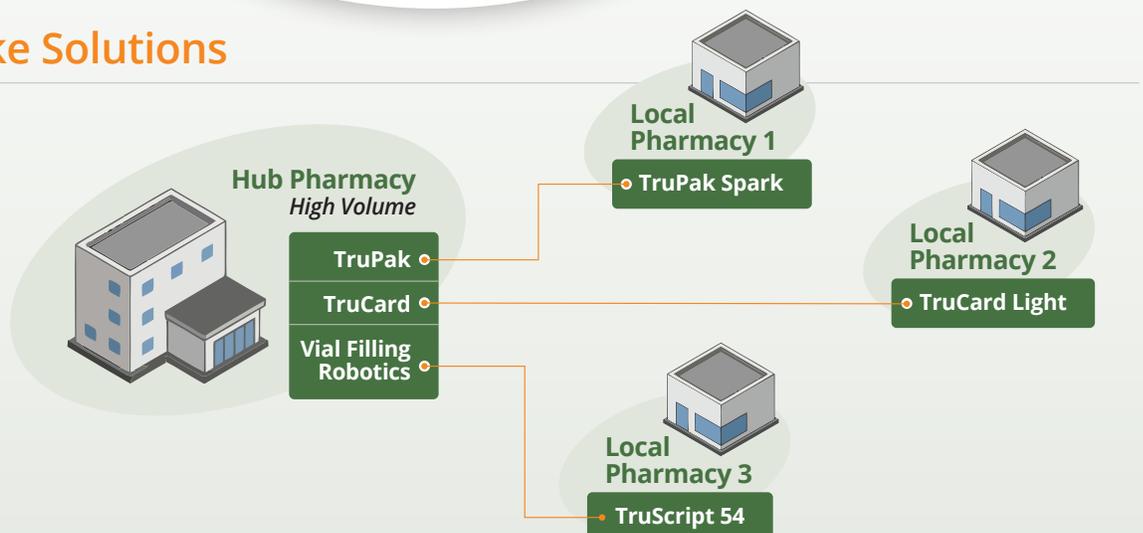

EnLite™ Data-Driven Management System

EnLite is your centralized partner for pharmacy automation management, unifying every automated dispensing system in your business into a single, intelligent ecosystem.

Hub-And-Spoke Solutions

- ▶ Lower cost to fill
- ▶ Change orders locally
- ▶ First doses started locally
- ▶ Cross-location redundancy
- ▶ Lower capital costs

Adherence Pouch Packaging

TruPak™ World-Renowned Pouch Packaging Technology

- ▶ Scalable, with unlimited canister formulary
- ▶ Advance staging with real-time pouch printing
- ▶ Hot-swap and refill RFID canisters during operation
- ▶ **Reduce pouch rework and downtime by 80% over other packaging systems**

TruPak™ Spark Compact Pouch Packaging

- ▶ 8 universal dispensing canisters
- ▶ Multi-dose or unit-dose
- ▶ Small footprint, growth-ready
- ▶ Automated packaging for new markets, redundancy packaging, hub-and-spoke models

Pouch Verification Automation

Intelligent Pouch Verification

- ▶ TruCheck processes up to 5,400 pouches/hour, while TruCheck+ processes up to 10,000 pouches/hour
- ▶ Allows for remote pharmacist verification
- ▶ NDC-level attribute adjustment for higher auto-pass rate, including transparent pills
- ▶ **Auto-pass rate from 95-97%**

Individual pouch confirmation with expected/detected/unexpected alerts.

Adherence Blister Card Packaging & Checking

TruCard™ Premier Blister Packaging With Built-In Verification

- ▶ Unparalleled inspection technology
- ▶ Hands-free tray loading with TruCard Stack (optional)
- ▶ Up to 40 filled, verified multi-dose cards/hour
- ▶ Unlimited RFID canisters with hot-swap technology
- ▶ **Cut pharmacist verification time up to 75%**

TruCard™ Light Light-Guided Blister Fill Station

- ▶ Semi-automated blister filling with advanced camera guidance and detection software
- ▶ Image-based documentation captures a visual record of each pill and completed card
- ▶ Color-guided process for speed, accuracy
- ▶ **Fill up to 16 cards/hour**

Automated Pill Sortation

TruSort™ Image-Verified Pill Sorting

- ▶ Sort an average of 120 pills/hour
- ▶ Repurpose high-value medications from unused pouches or blisters
- ▶ Repackage in pouches for inventory return
- ▶ **Recoup up to \$12,000/month**

Hands-free solution to control waste and reclaim inventory value.

Automated Vial Filling

TruScript[™] E4

Semi-Automated Vial Filling

- ▶ Manage 54 medications, up to 35% of total Rx fills
- ▶ Accommodates any vial
- ▶ **Fills simultaneous orders, up to 150 Rx/hour**

COMING SOON

TruScript[™] 108 & 180

Complete Robotic Vial Filling

- ▶ Automate 108 or 180 medications, 60% or more of total Rx fills
- ▶ Universal auto-calibration canisters
- ▶ **Automates up to 90 complete Rx/hour**

TruCount[™]

Streamlined Tablet Counter

- ▶ Precision counting performance
- ▶ Ideal for Rx fills, 90-day counts, and inventory
- ▶ Plug-and-play, no IT setup

Accessories & Workstations

JFCRx offers a complete line of workstations and workflow accessories to enhance the organization and output of your automated dispensing.

- ▶ Supply storage solutions keep materials organized and accessible
- ▶ Purpose-built workstations support smooth process flow and operator efficiency
- ▶ Pouch packaging and blister card management tools streamline production and reduce handling time
